## **Public Participation Plan**

Since Miami County is a recipient of federal grant dollars, we are required to conduct public participation. The plan is outlined in 23 CFR 450.210(a) "...The recipient shall develop and use a documented public involvement process that provides opportunities for public review and comment at key decision points..."

Public participation is an integral part of government service which helps to ensure that decisions are made in consideration of and to benefit public needs and preferences. Early and continuous public involvement brings diverse viewpoints and values into the decision-making process. This process enables agencies to make better informed decisions through collaborative efforts and builds mutual understanding and trust between the agencies and the public they serve. Successful public participation is a continuous process, consisting of a series of activities and actions to both inform the public and stakeholders and to obtain input from them that influence decisions that affect their lives.

Miami County has developed processes that are specific to the planning and implementation of services which include citizen participation. Involving Miami County's service recipients as well as the general public in planning and decision-making processes is critical to Miami County's mission. Generally, Miami County's public participation methods include, but are not limited to:

- Placing public notices of proposed program changes on the County's Internet website ([www.miamicountyks.org](http://www.miamicountyks.org)) and in physical program areas.
- Placing public notices and other information in the official county newspaper, program brochures, websites, on social media and other public venues for proposed program changes.
- Providing a public comment period for service, fees, or major policy changes where comments can be made by phone, mail, electronic mail, or in person. Public comment is a part of every Board of County Commissioner's meeting which occurs every Wednesday.
- Holding public meetings at times and locations that are accessible to as many Miami County service recipients as possible, especially those that are most directly affected by the subject of the meeting.
- Depending on the subject, holding meetings at different locations to be more accessible to the primary population to be affected or most interested.
- Utilizing the expertise of regional partners including the Mid-America Regional Council (MARC) as well as local jurisdictions that are impacted by proposed changes, to assist in distributing information to the general public or specific groups to be affected.

## Engaging Title VI Protected Groups

Miami County strives to engage Title VI protected groups in public participation and involvement activities so that their issues are considered in the department's decision-making process. To accomplish this goal, Miami County will utilize the following public participation strategies, as appropriate:

- Ensure that all communication and public engagement efforts comply with Title VI of the Civil Rights Act and the Miami County Title VI Plan.
- Coordinate with individuals, institutions, and organizations and implement community-based public involvement strategies to reach Title VI protected populations.
- Utilize local jurisdictions, the business community, community organizations, local media, or other resources to identify the most appropriate engagement methods.
- Provide opportunities for public participation through means other than written communication, such as public meetings, by telephone, email, or social media.
- Use locations, facilities, and meeting times that are convenient and accessible to low-income and minority participants/individuals. This may require holding meetings at different locations and times depending on the subject of the meeting.
- Use different meeting sizes or formats, or vary the type and number of news and social media outlets used to announce public participation opportunities, so that communications are tailored to the particular community or population.
- When planning major service or policy changes, collect statistical information to determine the impact of Title VI protected groups and utilize this information to calibrate the distribution of information and methods of engaging the protected groups.
- Include the Title VI public notification statement on Miami County's website, on brochures, and other important documents where appropriate.
- Overcome barriers to public participation for individuals with Limited English Proficiency by providing language resources, such as interpreter services.

- Include a statement where interpretation or other communication aids may be provided on public notices.
- Advertise public participation opportunities with media organizations that reach minority and ethnic populations to help ensure representation in the planning process.

## Summary of Recent Outreach Efforts

See Appendix C for Outreach Efforts

## Limited English Proficiency

Miami County is committed to providing quality services to all citizens of Miami County, including those with Limited English Proficiency (LEP). Title VI requires that recipients of federal financial assistance provide meaningful access to the benefits, services, information, and other important portions of their programs and activities for individuals who are Limited English Proficient.

**Factor 1:** The number or proportion of LEP persons eligible to be served or likely to be encountered by the program or recipient.

Based on Miami County's services, LEP persons interact with the County in the following ways:

- Participating in meetings or accessing services offered by the County or contacting a County office for assistance.
- Contact with Miami County employees by service, law enforcement, or others who make home/vehicle/personal contacts.
- Accessing Miami County website at [www.miamicountyks.org](http://www.miamicountyks.org) to obtain information about Miami County or its services.

Miami County operates a relatively minimal amount of service in areas with large percentages of LEP populations. Miami County does not believe that LEP persons are underserved due to language barriers. In Miami County, where Miami County Government operates the majority of its service, the percentage of individuals that would be affected by a language barrier is minimal.

When LEP persons do access Miami County services, there are resources to assist them, as described in the Language Assistance Plan

**Factor 2:** The frequency with which LEP persons come in contact with the Miami County programs.

Miami County staff experience confirms that Spanish is the most commonly-spoken language by LEP persons who access Miami County programs. According to Miami County staff that regularly interacts with the public, contact with LEP individuals is infrequent and unpredictable. Due to this infrequent contact, there has not been a demand for multi-language translations or other language assistance measures, except by request.

**Factor 3:** The nature and importance of the program, activity, or service provided by the program to people's lives.

Miami County provides many services to its residents, from Emergency Medical Services, Law Enforcement, Road and Bridge and other services. Residents need and depend on the services provided by the County.

Miami County currently utilizes the following types of documents to disseminate Information on services, to name just a few:

- The County Budget. (available on the County Website for viewing and downloading)
- Schedules for Health Department Clinics for immunizations, health screens, etc.
- The County Website. (all departments are represented on the website, and most documents offered on the website can be translated upon request)

**Factor 4:** The resources available to the recipient for LEP outreach, as well as the costs associated with that outreach.

Due to the relatively low number of LEP individuals in Miami County, and the low frequency of contact with Miami County staff, it is not currently warranted to provide full multi-language translations of written materials but rather upon request is deemed appropriate at this time. Also, budget constraints do not allow Miami County to provide 100% translation of materials.

However, Miami County understands the need to provide resources to LEP individuals when the need arises. Therefore, the County utilizes the following resources to provide meaningful access to Limited English Proficient (LEP) Persons:

- Brochures and written documents can be made available in Spanish upon request or upon identification of this need in advance of a meeting, service change, or another event.
  
- Miami County's website can be translated by Google Translate or Microsoft Translate which can be accessed in the web browser. Miami County's website contains schedules, agency contacts, department information and other important information. The front page of the website also has a Language Translation section where a convenient link to the Spanish-translated version of the website is provided.
  - There are 23 languages currently available through this service including Spanish, French, German, Russian, Japanese and Chinese. These translation services are provided at no cost to Miami County or its customers.
  
- In public notices, Miami County Departments state that language assistance services may be made available at public meetings with a 48-hour advance notification.

### **Language Assistance Plan**

Based on the above Four-Factor Analysis, the following Language Assistance Plan (LAP) outlines measures that Miami County will implement to ensure that LEP individuals have meaningful access to Miami County programs and services.

Methods for identifying LEP individuals who need language assistance:

- Maintain a list of points of contact with LEP individuals.

- Monitor new demographic data as it becomes available to determine the number of LEP individuals in the county and the eligible service area.

## Language Assistance Measures

Miami County continues to monitor the needs of LEP customers, evaluating multiple points of feedback, and tailoring services accordingly. Below is a sample list, including the language assistance services that are provided.

- Evaluate the need to produce other documents in Spanish (or other languages), such as strategic plans, service descriptions, and applications.
- Continue to provide language translation services on [www.miamicountyks.org](http://www.miamicountyks.org).
- Provide essential outreach materials in other languages, if warranted, on a case-by-case basis.
- Network with local human services organizations that provide services to LEP individuals to assess their needs and utilize their expertise as appropriate.
- On the Miami County website, state that interpreter services can be made available for a public meeting, with 48 hours' advance notification. This notice should also be included on any public notice to advertise a public meeting or service change.
- Spanish-language outreach materials from other organizations and governments will be reviewed by Miami County staff to maintain awareness of other entity perspectives.
- When oral interpretation services are needed for a public meeting, Miami County staff will attempt to access interpretation services from professional or qualified volunteer interpreters.
- Post the completed Title VI Plan on the Miami County's website.

## Staff Training

Each department will identify key individuals who may have contact with LEP individuals and train them in language assistance. Some key training issues will include:

- Provide staff training on the Title VI and LEP policies and procedures specified in this document.
- Identify Miami County staff as well as operations personnel who speak Spanish or other languages; utilize these staff members to communicate with LEP individuals and to assist with language translation activities.

## Providing Notice to LEP Individuals

- Post the completed Title VI Plan on the Miami County website and at County offices.
- On the Miami County Website, state that interpreter services may be made available for a public meeting, with 48-hour advance notification.
- If a service change is believed to impact a large number of LEP individuals, include a statement in public notices that interpreter services can be made available for a public meeting, with advance notification.

## Monitoring and Updating the Language Assistance Plan

Due to changing demographics and customer needs, the implementation measures listed above will be reviewed on a regular basis. At a minimum, Miami County will update the LAP along with the Title VI Plan every three years as required by United States Department of Transportation, or as otherwise required. Specific actions for monitoring and updating the plan are as follows:

- Review of Census Bureau data
- Records of contact with LEP individuals will periodically be assessed to determine future needs.

- Work with MARC and other County partners in the Kansas City region to share LEP best practices and coordinate on providing LEP resources.
- Collect information from community organizations that serve LEP individuals to determine appropriate changes to language assistance materials and procedures.

## **Executive Order 12898 - Environmental Justice**

Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations outline an important consideration for Federal agencies and recipients of Federal funds. Because Miami County is such a recipient, we are committed to the rule of Environmental Justice in the use of federal funds.

Environmental Justice is fair treatment and meaningful involvement of all people with respect to development, implementation, and enforcement of environmental laws, regulations, and policies. Fair treatment means that no population bears a disproportionate share of negative environmental consequences resulting from industrial, municipal, and commercial operations or the execution of federal, state, and local laws; regulations; and policies. Meaningful involvement requires effective access to decision makers for all, and the ability in all communities to make informed decisions and take positive actions to produce Environmental Justice for themselves.

Environmental Justice demands that those who have historically been excluded from decision making, traditionally minority, low-income, and tribal communities, have the same access to decision makers, decision-making processes, and the ability to make reasoned contributions to the decision-making process as any other individuals.

In our commitment to Environmental Justice, Miami County will make every attempt to prevent the following in its planning, policy, and execution of services:

- Displacement of persons, businesses, farms, or nonprofit organizations.
- Increased traffic congestion, isolation, exclusion, or separation of minority or low-income individuals within a given community or from the broader community.

- o The denial of, reduction in, or significant delay in the receipt of benefits of County programs, policies, or activities.

## **Membership of Non-Elected Committees and Councils**

Miami County is governed by the Miami County Board of County Commissioners (BOCC). The BOCC appoints members of the Planning and Airport Boards. All boards review and make recommendations on the planning, coordinating, and funding for the County's various services in their respective areas. The members help develop awareness of county programs/services and to gain public acceptance, support, and utilization. Diversity is encouraged in all appointments.
